

Morning Dr. Farid

We have a number of customers using the LPR solution in a police / metro environment.

Please have a look at the attached brochures, which will give you a better idea of the solutions possible.

In order to provide you with the appropriate LPR technology and hardware, would you mind answering few questions?

We have LPR solutions that can be used to obtain a wide range of information.

Q: What use do you want to put the LPR system to?

A:

We have both FIXED and MOBILE LPR solutions.

Q: Are you after ONLY the FIXED or ONLY the MOBILE LPR?

A:

Q: Is there any existing hardware, such as cameras, vehicles, etc. we can integrate into? OR is this a NEW SITE, with no existing systems?

A:

Q: Is there any existing databases, such as lists of stolen vehicles / outstanding traffic fines we can integrate into? OR is this a NEW SITE, with no existing databases? Do you have the database type?

A:

Q: If there are existing fixed points where you wish to have road blocks, do you have any site images / photos / maps / GPS info?

A:

Q: If a vehicle is detected, what should happen? Do you want a VISUAL ALARM? Do you want an E-mail, event written to a database; to you want the driver notified via a screen? Do you want the vehicle directed to a lane for further inspection?

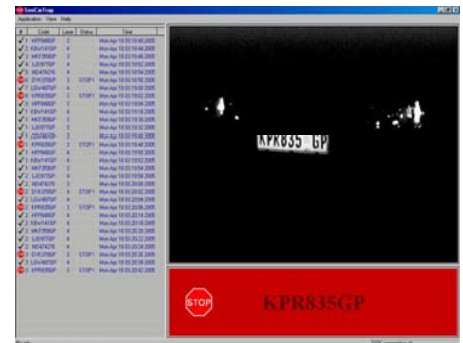

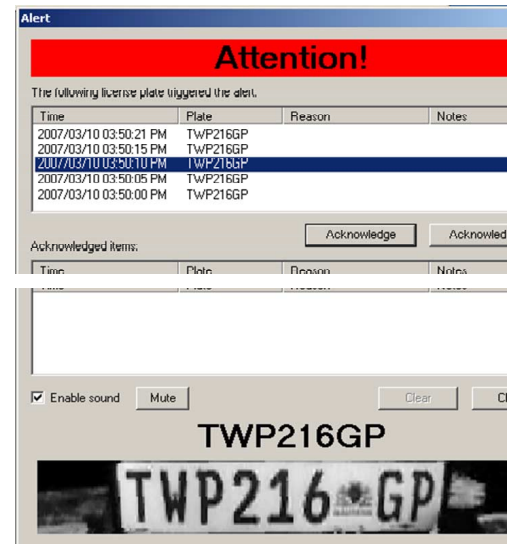

A:

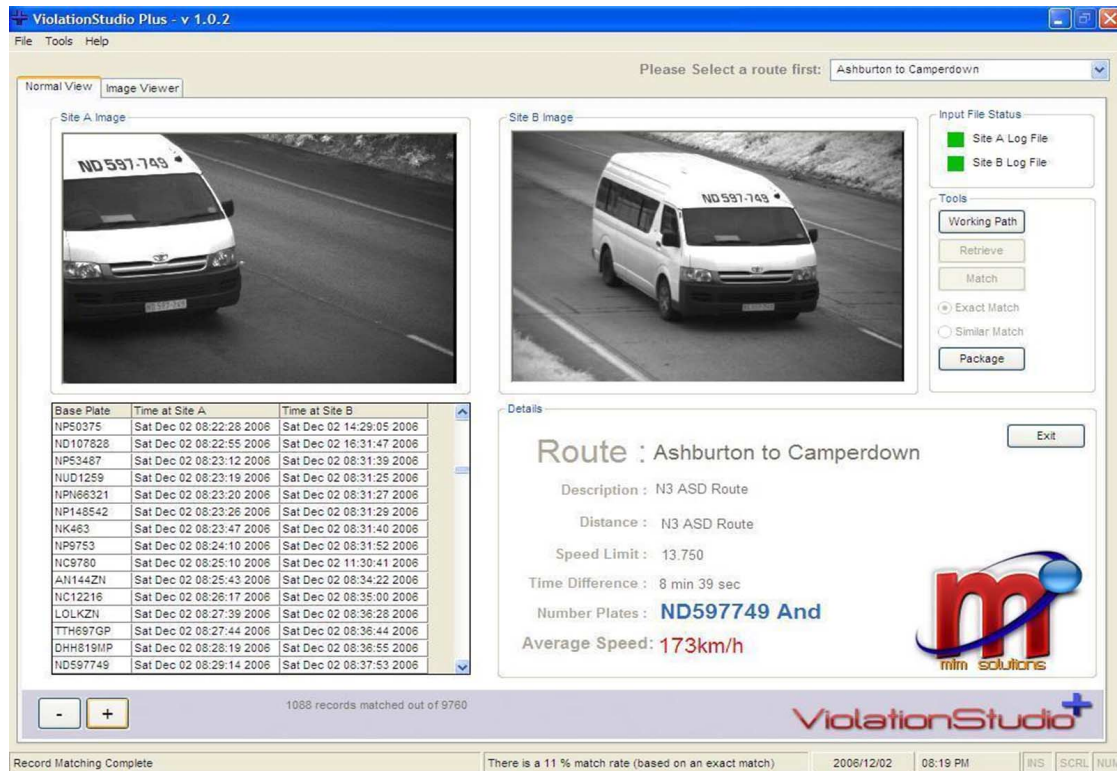

Q: Do you know the number of points / vehicles you wish to equip with this equipment?

A:

Q: Do you wish to issue violations? Such as speeding tickets / talking on a cell phone / parking or red light violation?

A:

We provide a number of different solutions.

Q: Would you want us to operate the solution for you?

A:

Q: Would you want to buy software only, hardware or a complete solution?

A:

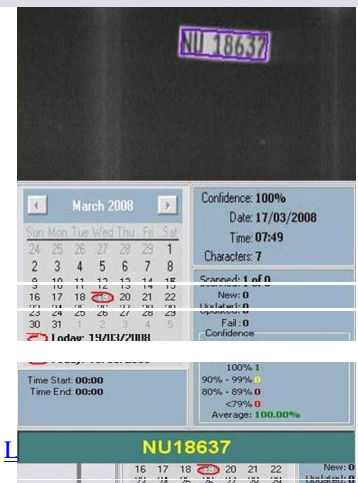

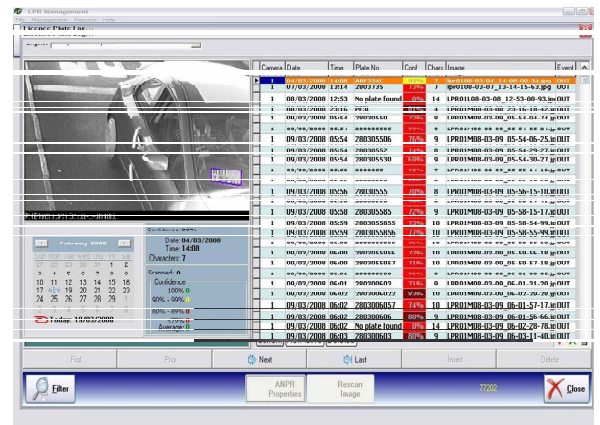

We provide a number of different purchase options.

Q: Would you want to purchase via a capital amount OR a rental OR a cost per transaction?

A:

Sorry to ask you so many questions, but the MORE I know, the better I can pick from the WIDE range of LPR solutions I-Cube provides.

Thanks

Barry
